Power, Precision and Agility. Built to last

Power, Precision and Agility

1625mm
(hopper empty height)

Highly Visible Safety Orange

Attention grabbing bright colour to maximise a safe working environment

Agricultural Grade E-Coated Steel

Weatherproof steel construction

Parker Hannifin Hoses & Eaton Hydraulic Pump

Severe environment, Industrial-grade components

All Hydraulic and Cable Functions

No computer chip or microprocessor - minimise costly repairs

2133mm
(width - dual side
brush model)

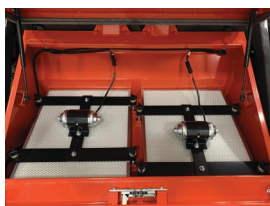

2690mm
(length)

Heavy Duty Filtration

Dual synthetic panel filters and aggressive twin shaker motors, "no tools required"

Reliable Kubota Powered

LPG or Diesel

Power Flex Suspension

Reduces operator fatigue and increases operator comfort

**Machine photos may show options that are not included on the standard machine*

Safety and additional machine benefits

- **Simple Operator Controls**
All hydraulic and cable connections
- **Integrated Waste bin**
Hand collect large debris while sweeping
- **Full View Debris Hopper**
Easily view when full or need to rotate
- **Easy Maintenance**
No tools required to change brush
- **Operator and Environment Safety**
Common industry options to maximise utilisation
- **Maintenance Benefits**
Full engine access for easy serviceability
- **Severe Environment Reliability**
Performance in the harshest environments

The 10X offers the largest sweeping footprint of the PowerBoss Sweeper Product line. Rugged all-steel construction, an 850 litre / 909 kg hopper, and Kubota Tier IV engine ensure superior industrial reliability in the most severe environments.

PowerBoss Kubota Engine Advantage

- Cast iron engine block and head = less thermal stress
- No timing belts, pulleys or tensioners = protection from dirt and debris
- Kubota engine was built for the industrial customer, non-automotive design
- More oil capacity = more lubrication
- World renowned reliability and performance
